

**Список публикаций оппонента Медведева Сергея Семеновича
профессора, доктора биол. наук,
по теме оппонируемой диссертации**

Статьи за последние 5 лет:

1. Medvedev S, Voronina O, Tankelyun O, Bilova T, Suslov D, Bankin M, Mackievic V, Makavitskaya M, Shishova M, Martinec J, Smolikova G. Phosphatidic acids mediate transport of Ca²⁺ and H⁺ through plant cell membranes. *Functional Plant Biology*. 2019, 46(6):533-42. SCOPUS, Pubmed, IF 1.539
2. Li, X., Makavitskaya, M., Samokhina, V., Mackievic, V., Navaselsky, I., Hryvusevich, P., Smolikova, G., Medvedev, S., Shabala, S., Yu, M. & Demidchik, V. Effects of exogenously-applied L-ascorbic acid on root expansive growth and viability of the border-like cells. *Plant Signaling and Behavior*. 2018; 13, 9, 4 стр., 1514895. Pubmed, IF 1.395
3. Li X, Makavitskaya M, Samokhina V, Mackievic V, Navaselsky I, Hryvusevich P, Smolikova G, Medvedev S, Shabala S, Yu M, Demidchik V. Effects of exogenously-applied l-ascorbic acid on root expansive growth and viability of the border-like cells. *Plant signaling & behavior*. 2018 Sep 2;13(9):e1514895. Pubmed, IF 1.395
4. Smolikova G, Kreslavski V, Shiroglazova O, Bilova T, Sharova E, Frolov A, Medvedev S. Photochemical activity changes accompanying the embryogenesis of pea (*Pisum sativum*) with yellow and green cotyledons. *Functional Plant Biology*. 2018 Jan 30;45(2):228-35. SCOPUS, IF 1.539
5. Medvedev SS. Principles of calcium signal generation and transduction in plant cells. *Russian Journal of Plant Physiology*. 2018 Nov 1;65(6):771-83. SCOPUS, IF 0.940
6. Mamontova T, Lukasheva E, Mavropolo-Stolyarenko G, Proksch C, Bilova T, Kim A, Babakov V, Grishina T, Hoehenwarter W, Medvedev S, Smolikova G. Proteome map of pea (*Pisum sativum* L.) embryos containing different amounts of residual chlorophylls. *International journal of molecular sciences*. 2018 Dec;19(12):4066. WOS, SCOPUS, Pubmed, IF 4.183
7. Frolov A, Didio A, Ihling C, Chantzeva V, Grishina T, Hoehenwarter W, Sinz A, Smolikova G, Bilova T, Medvedev S. The effect of simulated microgravity on the *Brassica napus* seedling proteome. *Functional Plant Biology*. 2018 Apr 3;45(4):440-52. SCOPUS, IF 2.491
8. Pozhvanov GA, Klimenko NS, Bilova TE, Shavarda AL, Medvedev SS. Ethylene-dependent adjustment of metabolite profiles in *Arabidopsis thaliana* seedlings during gravitropic response. *Russian journal of plant physiology*. 2017 Nov 1;64(6):906-18. SCOPUS, IF 0.940
9. Пожванов, Г. А., Клименко, Н. С., Билова, Т. Е., Шаварда, А. Л. & Медведев, С. С. Этилен-зависимые изменения метаболитных профилей

- проростков Arabidopsis thaliana при гравитропической реакции. ФИЗИОЛОГИЯ РАСТЕНИЙ. 2017; 64, 6, стр. 446-460. РИНЦ, IF 1,090
10. Pozhvanov GA, Gobova AE, Bankin MP, Vissenberg K, Medvedev SS. Ethylene is involved in the actin cytoskeleton rearrangement during the root gravitropic response of Arabidopsis thaliana. Russian journal of plant physiology. 2016 Sep 1;63(5):587-96. SCOPUS, IF 0.940
11. Smolikova GN, Medvedev SS. Photosynthesis in the seeds of chloroembryophytes. Russian Journal of Plant Physiology. 2016 Jan 1;63(1):1-2. SCOPUS, IF 0.940
12. Smolikova GN, Shavarda AL, Alekseichuk IV, Chantseva VV, Medvedev SS. The metabolomic approach to the assessment of cultivar specificity of Brassica napus L. seeds. Russian Journal of Genetics: Applied Research. 2016 Jan 1;6(1):78-83. SCOPUS, IF 0.944
13. Смоликова, Г. Н. & Медведев, С. С. Фотосинтез в семенах хлороэмбриофитов. ФИЗИОЛОГИЯ РАСТЕНИЙ. 2016; 63, 1, стр. 3-16. РИНЦ, IF 1,090
14. Пожванов, Г. А., Гобова, А. Е., Банкин, М. П., Виссенберг, К. & Медведев, С. С. Этилен вовлечён в реорганизацию актинового цитоскелета в ходе гравитропической реакции корней арабидопсиса. ФИЗИОЛОГИЯ РАСТЕНИЙ. 2016; 63, 5, стр. 624-635. РИНЦ, IF 1,090
15. Smolikova, G. N. & Medvedev, S. S. Seed carotenoids: synthesis, diversity, and functions. Russian Journal of Plant Physiology. 2015; 62, 1, стр. 1-13. SCOPUS, IF 0.940
